## **GARDEN SHOP AT BULK'S**

A visit to our Nursery Sales Department should prove pleasant, profitable and informative. Our men will gladly help you make selections and advise you on your planting problems.

Our plant material is healthy, vigorous, and is grown under ideal soil and climate conditions. Plants are freshly dug to insure safe transplanting, and everything possible is done to facilitate service for homeowners who wish to take plants with them.

We have an excellent stock of Evergreens, Broadleaf Evergreens, Ornamental Trees and Shrubs, Fruit Trees, Berry Bushes, Roses, Hedges, etc.

Flower and Vegetable Seeds, Lawn Seed, Fertilizers, Insecticides and Garden Sundries are stocked for your convenience.

Many items especially priced. Seasonal sales.

## **LANDSCAPE SERVICE**

Artistic and satisfactory landscape effects are the result of careful planning and the proper use of the right material.

Why not consult us about your landscape problems? Suggestions and advice will be gladly given. Appointments can be arranged at your convenience.

## **PLANTING**

The cost of planting, if we do it, is borne by the purchaser. Our charge merely covers the cost of labor, fertilizers, etc.

## **DELIVERY**

On large orders, where they can be combined, we intend to give free delivery within a radius of 30 miles from our nursery. On smaller orders a nominal charge for delivery will be made unless otherwise arranged at time of sale.

See page 42, for Guarantee and Table of B&B Rates.

## How to Plant Trees and Shrubs

Do not let the roots become dry. Keep them covered at all times with damp sacks or something similar.

Cut off broken or bruised roots just above place of injury. Shorten any roots that are overlong with a sharp knife or sharp pruning shears. See below and next page.

ALWAYS KEEP ROOTS COVERED

NOTE—MANURE, UNLESS WELL ROTTED AND THOROUGHLY MIXED WITH THE SOIL SHOULD BE USED ONLY ON TOP IF USED AT ALL.

Success in gardening depends on fertile soil.

**Cornus florida. WHITE-FLOWERING DOGWOOD.** Of regular habit, with spreading, open top. Showy white flowers cover the tree in May before the leaves appear and in autumn the green leaves turn dark red.

FOR FOUNDATION  
PLANTINGS THE  
IS UNIQUE

**YEW**

Upright Japanese Yews lend themselves ideally for use as accent points, for height at corners, for entrance groups, etc. The Spreading Japanese Yew has its many uses, especially where low growth is essential, such as under windows, at bases of terraces, low mass effects, and dressing off taller evergreens. Other forms, such as the low spreading English Yew (**Taxus baccata repandens**) and the Dwarf Japanese Yew (**Taxus nana**) create luxurious notes in any good evergreen planting.

**Thuja occidentalis lutea. GEORGE PEABODY ARBORVITAE.** A well-known variety forming a broad pyramid, with golden yellow foliage that is strikingly contrasted against the grays and greens of other evergreens.

**T. occidentalis nigra. DARK AMERICAN ARBORVITAE.** An upright variety with rich dark green foliage.

**T. occidentalis plicata. GIANT ARBORVITAE.** Pyramidal shape. Deep blue-green foliage with triangular whitish spots. As its name implies, it attains considerable height.

**T. standishi. STANDISH ARBORVITAE.** This is a loose, open type of Arborvitae, with rich green foliage that is more feathery in appearance than any of the other Arborvitaes. It is often used in informal plantings.

**T. occidentalis pyramidalis. PYRAMIDAL ARBORVITAE.** This is one of the very best of the Arborvitaes. It is distinctly columnar in growth, while its glossy, dark green foliage is equally attractive both winter and summer. A formal plant, and fine for accents.

How to Trim Hedges

At planting cut tops back to 4 or 6 inches above the ground. Each spring the hedge can be trimmed back to the desired height and width. Frequent trimming during early summer will make the hedge grow dense. Trim both the sides and the top or else hedge will grow wider at the top and become open at the bottom.

**WISTERIA.** (See Vines, page 35)

Evergreens have always been used and loved because of their stability and the color they lend the winter landscape. However, the greatest care must be used in their selection to avoid varieties which will grow out of bounds. Let us help you plan your new house planting.

## Evergreen Hedges

From time immemorial people have used hedges and fences to protect their property from intrusion and to secure privacy.

### ARBORVITAE

**DARK AMERICAN.** (*Thuja occidentalis nigra*). Rich dark green foliage; makes a full, compact hedge.

**Pyramidal.** Because of its shapely habit of growth and deep green foliage, this makes a very fine hedge.

2 to 2½ ft.....	\$30.00	\$275.00
2½ to 3 ft.....	35.00	325.00
3 to 3½ ft.....	45.00	425.00

### HEMLOCK

The Hemlock hedge is ideal, and we recommend it as one of the most beautiful of evergreen hedges. Every year it grows increasingly beautiful. The Hemlock also grows well in shade, and lends itself nicely to shearing.

	10	100
2 to 2½ ft.....	\$45.00	\$425.00
2½ to 3 ft.....	55.00	525.00
3 to 4 ft.....	80.00	750.00
4 to 5 ft.....	105.00	1000.00

### YEW HEDGES

Without doubt, this is the grandest of all the evergreens for hedges. In England and on the Continent, Yew hedges make up a large part of the charm of the landscape. The deep, rich, dark green foliage makes them a beautiful thing to behold. Plant a Yew hedge now and enjoy it all the days of your life.

**UPRIGHT YEW.** (*T. cuspidata capitata*).

	10	100
1½ to 2 ft., hedge type		
(thin) bare root.....	\$12.50	\$100.00
2½ to 3 ft., hedge type.....	47.50	425.00
3 to 3½ ft., hedge type.....	57.50	500.00

**SPREADING YEW.** (*T. cuspidata*).

	10	100
15 to 18 in.....	\$37.50	\$350.00
1½ to 2 ft.....	52.50	500.00
2 to 2½ ft.....	67.50	650.00

**HICKS' YEW.** (*T. media hicksi*). A narrow, upright form of Yew very useful for hedges.

	10	100
1½ to 2 ft.....	\$47.50	\$425.00
2 to 2½ ft.....	55.00	500.00
2½ to 3 ft.....	75.00	700.00
3 to 3½ ft.....	92.50	875.00

The Japanese Yew is, without doubt, the most attractive material one can use to surround the home-grounds. A hedge of the upright form (*Taxus cuspidata capitata*) kept sheared to the height and width desired, will be a thing of beauty twelve months in the year.

## Vines and Climbers

For quick results in covering the bare sides and softening the sharp angles of buildings, hiding unsightly fences, beautifying and shading porches, bowers, and summer-houses, vines and climbers are indispensable. The sweeping vines about a porch appeal to everyone.

## Bulk's Hardy Roses

Roses—the mere name is an inspiration to garden lovers. Nothing can take the place of the Rose. Almost every home has room for at least a few. Roses will grow in any fertile soil, but are much improved in bloom, fragrance, and beauty by rich soil, liberal fertilizing, and good cultivation. Branches should be well cut back early each spring.

Climbing Roses are easy to grow and can be used to provide a beautiful background for your garden. On posts, fences, walls, buildings or trellises they afford a glorious display of color.

Planted on steep slopes and pegged down they help to prevent soil erosion.

## Fruits

In the extremities of the lawn or upon the adjoining lot, plant fruit trees. They will bountifully reward you in the fruit they yield, which you will enjoy eating right from the trees or in winter as preserves and jam. The fruit-garden can easily be made a part of the scheme for beautifying your property. Flowers along the walk to the orchard will brighten the way and provide blooms for cutting.
